About Me

Hello, I am Adib MohammadPouri, user experience and user interface designer. It's been more than 2 Year since I entered this area, and after completing graphic software training courses, I started preparing work samples. My most important goal in this work is to help the development of brands, companies, and different organizations and to integrate their visual identity, and to achieve that, I will always try to Deliver you the best and most creative designs I can.

My Skills

(Hard Skill)

User interface design (UI):

Familiarity with graphics and its principles, as well as the ability to generate ideas and creativity
Full familiarity with Photoshop, Illustrator and Figma tools and presentation of related work samples
Visual identity and logo design for different brands based on your wishes and brand color and type
Designing social posts, advertising banners, headers and different menus based on the visual identity of Bren

User Experience Design (UX):

Responsive designs and open layer
Website and application design and their prototyping in Figma
Low Fid and High Fid wire frame design
Familiarity with preparing a master case and all its branches such as user flow, user journey, mind map, persona, empathy map, etc.

(Soft Skill)

- Good communication with others
- A lot of motivation
- Ability to solve problems with ideas
- team work
- Thinking positive
- Ability to manage time
- Creativity in designs
- Ability to work with other members
- Ability to empathize with users
